- ✔ Functional areas like **HR & Admin** (+7%), **Sales & Business Development** (+4%) and **Finance & Accounts** (+2%) saw the lowest hiring demand among companies from the year ago level .
- ✔ **Legal** (+21%), **Marketing & Communications** (+13%), **Hospitality & Travel** (+11%) and **Customer Service** (+7%) reported annual surge in January'21.

Data & Methodology

The Monster Employment Index is a broad and comprehensive monthly analysis of online job posting activity conducted by Monster India. Based on a real-time review of millions of employer job opportunities culled from a large, representative selection of online career outlets, the Monster Employment Index presents a snapshot of employer online recruitment activity nationwide.

In order to avoid excessive monthly fluctuations, the index is calculated using a volatility-adjusting formula. We publish the data in a volume index format with the base value of 100. The index describes changes in the level of online job demand against the baseline. An increase in the index indicates growth in online job availability and suggests an increase in the demand for employees by employers.

Monster Employment Index was first launched in India in May 2010 with data collected since October 2009 followed by Gulf in April 2011 with data collected since October 2010; Singapore in May 2014 with data collected since January 2011; Philippines and Malaysia in May 2015 with data collected since February 2014.

Monster has taken due care in compiling and processing the data available from various sources for Monster Employment Index, but does not guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or action / decision taken or for the result obtained from the use of such information.
